workers were employed at the installation. A low mooden building and several small sheds obviously used for the storage of construction tools were observed south of the Mahlwinkel-Golbel road, about $1 \frac{1}{\kappa} \, \mathrm{km}$ west of Cobbel. No concreting work was noticed.

completion. Construction work at Mahlwinkel airfield is nearing completion. Already in early November, the Paumnion in Brandenburg was ordered by the Soviet construction headquarters to have the field completed by 15 December. It is possible that runway mats will have to be laid at the field although the arrival runway mats has not been observed.
